This calculator provides general information only, does not constitute financial or personal advice or a binding offer or quotation, and should be relied upon by users. Estimates are indicative and calculated on the vehicle total on-road costs including registration and stamp duty; excluding charges and discounts which will be negotiated when ordering via the Autopia Car Buying Service. Estimated repayments include an amount for fuel, maintenance, tyres, registration and comprehensive insurance.

These calculations are designed to be a guide only to the tax savings you may achieve from a Novated Lease. Eligible Electric and low emission vehicles that are exempt from FBT will still have a Reportable Fringe Benefit Tax amount that can have implications on payments such as HELP payments, child support payments, as well as possible implications for some family tax benefits. If this impacts you, you may wish to contact your payroll department to understand the impact on your pay and/ or seek independent financial advice.

Calculations for second hand eligible electric and low emission vehicles assume that the first time the vehicle was both held and used was after 1/1/2012 and that luxury car tax has never been payable on the importation or sale of the vehicle. If the vehicle does not meet these criteria, it is not eligible for the FBT exemption and the calculations will differ from those shown.

Autopia accepts no responsibility for reliance on the calculations provided. Before acting on any information or entering into a novated lease agreement, you should consider your objectives, financial situation and needs, and, take the appropriate legal, financial or other professional advice based upon your own particular circumstances.

Contact a Autopia team member for an accurate and tailored quote by calling [1800 288 674 \(tel:1800288674\)](tel:1800288674).
